GASCO_revised CDR Comments_with Appendix F comments_4-May-12.docx

Dana, Please see EPA's attached comments. To avoid any confusion on NW Natural's part we suggest EPA's comments be transmitted in their entirety.

Thank you.

Subject: NW Natural, Gas

Good morning Sean.

Attached are DEQ's replies to NW Natural's responses to our comments on the MODFLOW model.

If it works for you and the CDM folks, I'd like to send these on to NW Natural by end-of-day Friday (7/15) or next Monday morning.

The replies are organized consistent with NW Natural's November 4, 2011 package of responses to EPA's/DEQ's September 2011 comments on the Revised Interim Design Report. In addition, DEQ provides comments on Appendix F of the Construction Design Report, including NW Natural's April 12, 2012 memorandum submitted as a supplement to the appendix.

NW Natural is expediting modeling work to support the final design of extraction wells, and requested we extract our comments to facilitate their efforts. In the interest of expediting their priority work efforts we've done so. We will be following these comments on the model with comments on the performance monitoring plan.

Mr. Dana Bayuk, Project Manager
